Just FYI....

- 1) the 10 boxes of PPE from CBI could not be returned so, Daniel loaded them up and took them to the Weston Warehouse he marked "EPA" on the top of each of them.
- 2) LeRoy is still working on the procurement of the fence/gate.... His procurement folks are switching it from a rental to purchase

Right now, we are just waiting on the pick up of the two orange roll offs.... Should happen by 11:30 am. The trailer and toilets are also supposed to be picked up today too.
